THE REPUBLICAN NATIONAL CONVENTION.

A National Convention of the Republican party  
will meet at Chicago, Wednesday, the 23 day  
of June next, for the nomination of candidates to  
be supported for President and Vice President at  
the next election.

Republicans, and all who will co-operate with  
them in supporting the nominee of the party, are  
invited to choose two delegates from each  
Congressional District, four at large from each  
State, two from each Territory, and two from  
the District of Columbia, to represent them in  
the Convention.

J. D. CAMERON, Chairman.  
THOMAS B. KROGH, Secretary.

REPUBLICAN STATE CONVENTION.

ROOMS OF THE  
REPUBLICAN STATE CENTRAL COMMITTEE.  
MILWAUKEE, February 19, 1889.

A State Convention of delegates representing  
the Republican party of Wisconsin, and of all  
who will co-operate with them in supporting the  
Nominees of the party, is hereby called to meet  
at the Capitol in Madison, at twelve o'clock M.,  
on Wednesday, May 15, 1889, for the purpose of  
placing in nomination an electoral ticket of ten  
electors to be supported by the party at the next  
Presidential election, and also to select twenty  
delegates, (two from each Congressional district  
and four from the State at large,) to represent the  
Republican party of Wisconsin in the National  
Republican Convention, which is called to meet  
at Chicago on the 23 day of June, A. D. 1889, and  
to transact such other business as may be deemed  
necessary.

Each Senate and Assembly District is entitled  
to two delegates in the Convention.

The only hope Madison has is that the  
next Legislature will defeat the biennial  
sessions bill.

The restoration of Fitz John Porter to  
his former rank with a bonus of \$30,000,  
will be a good Republican campaign document.

The Democrats in Congress are constitutionally  
unable to do anything which will  
shorten the session or be of any advantage  
to the country.

Dr. Garcelon has been summoned to appear  
before the Maine Bribery Investigation  
Committee, to tell what he knows about  
stealing the State.

Congress can't adjourn. The Democratic  
members have a delicacy about going  
home and explaining why they have done  
nothing this session.

Mr. Tilden will give the party no satisfaction  
regarding the person who he will  
select to take the tail end of Democratic  
ticket. He is oppressively silent on this  
point.

Will the Madison papers give some substantial  
reason why the bill to provide for  
the more systematic and efficient management  
of the hospital for the insane, should  
not pass? Of course it will be too bad to  
throw a certain Madison clique out of  
office, but when the State is to be benefited  
by the change, why not inaugurate the  
reform?

Mr. Blaine thinks of attending church on  
the 31st of October. At least church  
going on the Sunday before election is on  
the programme he has marked out for  
himself in the event of his nomination  
for Presidency. Let's see, the last time we  
heard of Blaine's going to church was in  
June, 1876. It wasn't really healthy for  
him then. But October is cooler than  
June. The sun roasts lower.

Mr. W. D. Hill, of Ohio, who is now in  
Congress, said from a Washington balcony  
a few days ago, that the Democrats would  
nominate their man at Cincinnati, and  
"inaugurate him whether he is elected or  
not." The Democratic editors who want  
to smooth this over as much as possible,  
say Congressman Hill was drunk when he  
said it, and therefore is hardly responsible  
for the statement. Mr. Hill is an outspoken  
Tilden man.

The Chicago Tribune considers it its  
duty to make disparaging comments on  
Senator Logan's speech in the Fitz John  
Porter case, calling particular attention to  
his careless use of the English language,  
and pretends to make merry over it. Such  
wit is very fresh and so deliciously  
funny, and is so brave an acknowledgment  
of Logan's grand defense of the honor  
of every Union soldier, that the Tribune is  
doubtless proud of it.

A dispatch from Washington says that  
Treasury officials have about given up all  
hope of the refunding bill going through  
Congress this session, and that efforts will  
be directed to the passage of a bill providing  
for the issue of new coupon bonds to  
replace the bonds falling due next year.  
This is one of the mistakes of Congress.  
The time which it spends in doing nothing,  
should be devoted to enacting a law  
which shall give the country the 3 1/2  
bonds.

The mineral resources of the United  
States are a most boundless, and the mining  
interest is now one of the most important  
developments, and to test the power of the  
United States and Territories to give up  
their hidden treasure, Mr. Clarence King,  
the head of the Geological Survey, makes  
a request of Congress, that the survey  
shall extend to the whole territory of the  
country. He suggests the excellent idea of  
issuing an annual volume of statistics on  
the subject, which he thinks  
would awaken a deep interest and would  
be received with greater favor than any  
other publication the Government furnish-

### FROM MADISON.

The Condition of the Winter Wheat  
Crop.

SPECIAL TO THE GAZETTE.  
MADISON, March 10.—Special dispatches  
to the State Journal covering all points in  
Dane and adjoining counties, concerning  
the condition of winter wheat, indicate the  
crop not very seriously injured by the late  
alternate freezing and thawing, but will  
average about four-fifths of the usual yield.  
The red chaff variety has stood the season  
the worse, and the false best. The acre-  
age is over double that of last year.

### POOR IRELAND.

A Heartrending Story of the Fam-  
ishing Poor of Ireland.

NEW YORK, March 9.—The Herald to-  
morrow morning will print the following:  
LONDON, March 9.

To the Donors of the Herald Relief Fund:  
I have made my first visit to the suffer-  
ing counties of Ireland, and hasten to  
make my report of what I have seen and  
done.

The committee, which is composed of  
gentlemen thoroughly acquainted with the  
country and the people, has entered upon  
its difficult task with the determination to  
make a personal inspection of the dis-  
tressed districts. They are eminently fitted  
to supply the pressing need of the suffer-  
ers with the greatest possible speed and  
economy of the funds. They have already  
held several meetings, at which those sec-  
tions have been indicated which need the  
earliest attention. They have voted  
supplies for the quarters where a vast  
amount of suffering is known to exist.  
It is easy to understand the causes of  
the present poverty. The people have had  
three bad crops in succession, and  
things have been growing worse and  
worse, until the almost utter failure  
of the crops last year brought them to the  
verge of starvation. They have nothing  
to plant—a want which the British Gov-  
ernment will supply by the loan of seed  
potatoes on very easy terms. They have  
nothing to eat—a want which you have  
generously helped to supply by gifts  
which I am sure you will supplement  
with other gifts when you know  
what is the real state of the case.

In order to understand for myself the  
condition of affairs, I spent a few days  
under the leadership of Colonel King Har-  
man, covering about thirty square miles on  
the first day and over forty on the second.  
I visited a large number of small tenements  
on the west banks of the Shannon,  
in the counties of Roscommon and Sligo.  
For about ten hours each day I rode and  
walked, entered, altogether, about a hundred  
wretched hovels, which this afflicted  
people delusively call their homes, and  
where from morning till night they can-  
counter the dreary monotony of want  
and misery. While fully prepared to  
meet more or less distress everywhere,  
knowing, through former visits, something  
of the chronic state of poverty in which  
the people live, I was not prepared, nor  
could anything I ever have before seen, in  
any degree prepare me for the scenes of  
abject misery and sickening squalor which  
I found at every turn. The people did  
not know of my coming, and could not  
prepare for any dramatic display of wretch-  
edness and want. Unaware I searched  
every corner of scores of houses for any  
means of subsistence, and came back at  
night with an aching head. I have  
seen what it would do you all go to see.  
Even after hearing it I am sure you will  
increase your gifts, generous as they have  
been, until this great chasm of distress can  
be bridged over. When I tell you that I  
have seen men utterly break down when  
I slipped a paltry shilling into their hands,  
and women clutch a loaf of bread as  
though they were afraid that some one  
would suddenly appear to take it from  
them, you can faintly imagine what I have  
experienced in the last few days.

### PORTER'S BACK PAY.

The Democrats Divided Regarding  
Porter's Back Pay.

WASHINGTON, March 10.—Several of the  
ablest Democratic lawyers are not clear as  
to the power of Congress to take such ac-  
tions as was proposed, and Cockrell, of  
Missouri, is outspoken in his opposition  
to that portion of the bill which appropri-  
ates to Porter \$50,000 or \$70,000, to  
which he would have been entitled had he  
never been dismissed from the army. Mr.  
Cockrell is a member of the Military  
Committee, and one of the fair men on  
the Democratic side. In conversation to-  
day, he expressed grave doubt as to whether  
Congress possessed constitutional power  
to set aside the findings of a court-martial  
in the manner now proposed, and said that  
the Porter case stood on a different ground  
from many which had been cited as pre-  
cedents, because sentence is a continuing  
one; but, this question aside, he was utterly  
opposed to the principle of back  
pay as incorporated in the

bill. He did not believe that  
Porter had any just claim to this money,  
and he thought that the voting of it to him  
would open the door for serious raids upon  
the Treasury. Indeed, Mr. Cockrell used  
almost as severe language in referring to  
this subject as the Republican minority  
of the committee, who intimate that  
this will be only the forerun-  
ner of other assaults upon  
the Treasury in favor of dismissed officers.  
Mr. Cockrell is by no means alone among  
the Democrats in taking this view of the  
subject. Representative Dunn, of Arkansas,  
who also fought in the rebel army, like  
Senator Cockrell, expressed very similar  
views in conversation on the subject to-  
day.

### THEODORE THOMAS.

CINCINNATI, March 9.—At a mass rehar-  
sal to-night, at Music hall, of the May festi-  
val chorus, there was an enthusiastic  
demonstration in favor of Theodore Thom-  
as. He was welcomed with cheers, and  
was the recipient of a quantity of floral  
tributes. The organization was called to  
order and adopted with great enthusiasm  
a series of resolutions deeply deploring  
the action of the Directors of the College  
of Music toward Mr. Thomas;  
also, and they did not request Mr. Nichols'  
retirement from the Presidency of the  
May Festival Association, and declaring  
their conviction that Mr. Thomas should be  
immediately reinstated in his name.  
Mr. Thomas replied, begging his friends to  
keep the college and the festival entirely  
separate, and to show their friendship for  
him by working heartily for the success of  
the festival, so as to make it better than  
its predecessors.

### LEDUC THE GREAT.

The Cabinet Enjoys a Laugh at Led-  
uc's Expense.

WASHINGTON, March 9.—The Cabinet had  
some fun to-day over a bill for the sup-  
pression of cattle diseases, which has been  
introduced by the eminent statesman Ben  
Lefevre, of Ohio, and which is supposed  
to have originated with the famous Com-  
missioner of Agriculture, Leduc. This bill  
provides for a board of three persons, to  
consist of the Commissioner of Agriculture,  
the Secretary of the Treasury, and the  
Secretary of State, to suppress cattle dis-  
eases. It provides that the Commissioner  
of Agriculture shall be President of the  
board, and whenever the members of the  
board are designated his name always  
comes first. Some of the Cabinet thought  
it was very funny that the Premier of this  
great nation should be made subordinate to  
a Commissioner of Agriculture, and subject  
to his order, and it was feared if  
this bill should pass Leduc  
might keep Messrs. Evans and Sherman so  
busy that they could not attend to their  
duties as the heads of the two greatest de-  
partments of the government. It was  
humorously suggested that they might re-  
sign their portfolios on such an event, but  
Mr. Evans thought that the bill should be  
amended so as to place the entire Cabinet  
under Leduc's orders.

### SOLD.

LA CROSE, March 9.—The Democrat  
this morning announces the sale by Pom-  
ero & Foote of the LaCrosse Daily Demo-  
crat to Alex. Nevins, who will in a few  
weeks commence the publication of the  
Daily News, an afternoon Republican pa-  
per.

### GUARD OF HONOR.

SPRINGFIELD, March 9.—The Lincoln  
Guard of Honor met to-night and decided  
to hold suitable commemorative services  
at the Lincoln Monument April 15, the  
anniversary of Abraham Lincoln's death.

Guard Against Consumption,  
that life destroying scourge, by promptly  
subduing with the aid of Parker's Ginger  
Tonic every attack of Cough, Cold, or Sore  
Throat. There is nothing like it. Acting  
powerfully upon the blood and skin, and  
the mucous surfaces of the throat and lungs  
it speedily overcomes those dangerous dis-  
orders, prevents the development of the  
dreaded Consumption, and removes all  
pain and soreness from the lungs. It is  
wonderfully efficacious in Dyspeptic affec-  
tions, and gives the most comforting relief  
from Headache, Distress in the Stomach,  
Nervousness, Low Spirits, Wakefulness,  
Palpitation of the Heart, Heartburn, etc.  
It regulates the Bowels, corrects bad hu-  
mor, loosens the constipation, and stimu-  
lates the Liver to healthy action. Buy a  
50-cent or \$1.00 bottle and try it.  
Sold by all first class druggists.

ASSEMBLY.  
MADISON, March 10.—In the Assembly  
this morning Morgan L. Martin's claim for  
damages growing out of the old Green  
Bay and Mississippi canal was indefinitely  
postponed.

The Senate bill was concurred in allow-  
ing a girl of 15 years to be committed to  
the Milwaukee Industrial School for  
Girls.

The Assembly bill repealing that section  
of the revised statute which makes Rail-  
road Companies responsible for damages  
sustained by employees by the negligence  
of other employees, was, after an able  
speech in favor of repeal, by Colby, passed  
to a third reading.

The bill providing for a State grain in-  
spector at Milwaukee was killed after a  
lengthy debate.

THE SENATE.

In the Senate, Fife's bill for the pro-  
tection of fish in Lakes Michigan and Su-  
perior was passed.

Assembly bills were concurred in per-  
mitting purchasers of logs to get a writ of  
assistance to obtain possession of logs pur-  
chased on lien sale.

Allowing a judge to certify that he is  
prejudiced, and change the place of trial.

Obliging claims for log licensees to be

Mr. and Mrs. Tom Thumb.

New York Letter in Cincinnati Commercial.

Down stairs rushed the crowd, and in a  
few moments the certain that concealed a  
small stage was drawn up, and a particu-  
larly long and lean man came out to an-  
nounce Mr. and Mrs. Charles Stratton. A  
man at the piano struck up, "See! the  
conquering hero comes!" and the tiny  
couple entered. Tiny, did I say? Then  
let me take it back, as far as the general is  
concerned, for he grew fearfully and  
wonderfully fat, rather yellow and very  
wrinkled. He looked in fact, like an  
orange that had been sat upon, and his  
gray goatee and hair added to his evident  
accumulation of years. He must weigh  
at least 110 pounds, which, considering his  
height to the square inch, is doing very  
well.

His little wife looks careworn, and is  
hardly stouter than when she first ap-  
peared, but she wears a charming toilet of  
pink satin and pearls, and smiled the same  
five for a sweet little smile as of yore.  
She sang in a voice fine as 100 thread a  
song about the shamrock, and then the  
general appeared in his favorite  
character of Napoleon. I think the  
spectacle would have been more  
impressive had the great warrior wriggle in his  
grave even more than Mme. de Remusat's mem-  
ories; and when the plumb exhibitor went  
to strike the attitude of meditation, he lost  
his balance and toppled over on one side,  
the amusement of the audience. Then a  
tall, slim young man came out as a China-  
man, and danced and sang and slid around  
on his prior skates, and the matinee was  
over.

After the people had dispersed I had a  
little chat with the famous small couple.

"How long have you been before the  
public General?" was asked.

"Over forty years," said he, folding his  
arm and striking an attitude. "People  
say I have an attitude that I have retired,  
but the truth is I can't without the ex-  
citement of public life, though my wife is  
getting rather tired of it."

"Yes," said Mrs. Thumb, with a weary  
little sigh; "we have been married seven-  
teen years to-day, and I think it was  
about time we stayed at home. You see,  
I am domestic in my tastes, and love house-  
keeping, but the General wants to be on  
the go all the time."

"Well, well," said her husband, with an  
imperial wave of his short and fat hand.  
"In summer I have my yacht and fast  
horses, and that passes the time away, but  
the winter season is pretty dull in Middle-  
borough."

"Yes," said Mme. Thumb, with an ex-  
pressive look, "it is not for so much  
yachting and fast driving our bank account  
would be a little bigger to-day."

"My dear!" said the General, and an  
awkward pause ensued, broken by our  
correspondent remarking: "People were  
very sorry to hear of your sister's (Miss  
Minnie Warren) death."

"Yes," said the wee woman, with tears  
in her eyes and as much feeling as a six-  
footed, "it was a great blow to me, and then  
came the loss of my dear little son. A good  
many people thought he was nothing but  
an advertisement," she continued, growing  
a trifle incoherent; "but if they had known  
how I felt they wouldn't."

"And what has become of little Major  
Newell, your brother-in-law?"

"Why, don't you see him in the Chinese  
song and dance?"

"That tall young man? Impossible!"

"Oh, yes; that was the major. You see  
about the time that Minnie died the poor  
fellow began to grow (this very mourn-  
fully) and kept on growing until he was  
like anybody else. Of course it ruined his  
business, and he had to go into the vari-  
eties, so we try to get him engagements  
with us."

"And where is Commodore Nutt now-a-  
days?"

"Oh, he is making his money fly out in  
San Francisco."

"Come along, my dear," the general  
led his wife and helped her into the coupe,  
and filled up one seat himself. The colored  
driver whipped up the dapple gray ponies,  
and off they went, smiling and bowing.

## MISCELLANEOUS.

# HERE WE GO AGAIN

No use of talking—have got  
to have a guardian appointed to  
keep us from giving away goods.

Every day, rain or snow, mud  
or slush, they will come in and  
buy something, if nothing more

than a box of ten cent collars.

When a fellow gets up on his  
ear, and hitches four horses and  
a mule to a stone boat, to come

through the mud for a new suit

of clothes, it shows that he

means business. We should

have sold the suit to him all the

same if he had taken only one

horse and then walked in. Re-

ceiving goods every day for lit-  
tle old men, big young boys, and  
large sized infants. We keep

good goods to sell, and sell good  
goods for keeps. One more lot

of those twenty five cent over-  
alls, just received from the Hub.

Fifty dozen more of those ten  
cent socks. Goods sent by tel-

CITY AND COUNTY.

## BRIEFLETS.

—It is a cold March at night.  
—New bonnets for Easter are being ordered.

—Young Men's Christian Association meeting this evening at their room.  
—Prof. Severance is to be on hand to take care of his dancing school this evening.

—The Northwestern railroad surveyors started yesterday for another look over the contemplated line to Alton.

—S. A. Gowdey, of Carpenter & Gowdey, has started on a three weeks' trip to Northern Wisconsin, Minnesota and Dakota.

—An infant child of John Matthews, who lives about four miles west of the city, had one of its arms broken yesterday, by tumbling out of a chair.

—There is to be a special meeting of the Ancient Order of United Workmen this evening to take appropriate action concerning the death of their brother E. C. Bailey.

—About thirty friends gathered in the parlors of the residence of Mr. and Mrs. James Clark last evening, and spent several hours together in a very happy manner, there being chit-chatting, cards and games, and an ample spread of tempting delicacies and substantial to satisfy the physical appetite. The occasion was a joyous one, and the hospitality was greatly appreciated by the favored guests.

—Among the arrangements made for the Milwaukee Industrial Exposition, is the appointment of committees in the principal towns and cities of the State. From this city the following are named: A. P. Lovejoy, W. H. Ashcraft, Harris & Smith, Cotton Manufacturing Company, and McLean Manufacturing Company. The men and companies selected are representative ones, and the choice has been well made as far as this city is concerned.

—The general class meeting held at the First Methodist church last evening was largely attended. In about an hour and a quarter there were one hundred testimonies given, which made quick work. There is to be a preaching service and prayer meeting to-morrow night, the subject of the pastor's talk being, "How to Keep Religion." The special services held lately at this church have caused an addition of about twenty-five members to the church.

—A package came by express, on Monday, to this city from Boston, marked by Bryan H. Atwater, done up elegantly, indeed, in the highest style of the art, and as he was not expecting a package of any kind, and having large caution, the superficial appearance and marked from Boston, aroused his suspicion. It might be an infernal machine, but why such a machine should be sent him was beyond his comprehension, he being at peace with all mankind. So counseling with the sample taker, it was decided safe to open and explore the contents of the package, when lo! and behold! there appeared to view, in propria persona, one of Robbins & Appleton's best gentlemen's new style, stem-winder, gold watch, to the joy of the receiver and great pleasure of everybody else, who, knowing him, inspected the present and congratulated and enjoyed it with him. We never knew of a present that caused more real heart warming, or the ebb and flow of more kindly feeling than this. Who the donor may be, is to him and us a mystery. The young man suspects his mother, and sisters, and supposes it to be a majority birthday present. Whoever they are, they have his warmest and best heart's affections. The watch, no doubt, is one of that justly famous firm's best productions. May its accuracy and reliability be equaled by his watch through life.

—The weather.  
The thermometer at 6 o'clock last night stood at 26 degrees above; at 1 o'clock a. m. to-day at 12 degrees above; at 7 o'clock a. m. 13 degrees above; and at 1 o'clock p. m. 39 above. Partly cloudy.

The indications to-day are, for the upper lake region, falling preceded by rising barometer, westerly, shifting to warmer southerly winds, clear or partly cloudy weather.

## PRESCRIPTION NO. 2.

Last evening the Doctor of Alcantara was again given at Lippin's hall to a goodly sized audience, though not so large a one as on the evening previous. The opera, moved off smoothly, the participants were in excellent voice, the audience seemed appreciative and duly enthusiastic, and this second rendition, like the first, was a vast improvement over those given before in this city, and was in all respects a success. Those who took part can well congratulate themselves on the evident hold which this opera has taken on the public, and the popularity it has earned for itself, and the praise won by themselves.

## DEATH OF E. C. BAILEY.

For several days the friends of Emmet C. Bailey have been hourly expecting his death, the complication of diseases, which have caused him great suffering for months, being of such a nature as to render all hope of recovery useless. The final blow came about 6 o'clock last evening, and E. C. Bailey is no more. The deceased was the only son of Chester Bailey, Esq., Superintendent of the Janesville Cotton Manufacturing Company. He has been the Superintendent of his father's cotton batting and twine factory ever since its establishment, and has lived in this city for five years past. He had reached the age of thirty-four years and leaves a wife and two sons, one about twelve years and the other about nine years of age. To them will be extended many a hand of sympathy in their great sorrow.

Mr. Bailey was a member of the Sons of Temperance and of the Ancient Order of United Workmen. The latter body will have charge of the burial services, the funeral to be held to-morrow afternoon, the friends meeting at the house at 2:30 o'clock, and the services proper at the First Methodist church at 3 o'clock, Rev. H. Sewell officiating.

## THE NEW TRUCK.

It is now on hand ready for a Fire-Its Looks and Make-up.

The new hook and ladder truck has arrived from Chicago, and it is one of which the members of "Rescue No. 1" may not only feel proud, but it certainly does credit to the city. There will no longer be any occasion for defeated competitors in tournaments to poke fun at Janesville's "hay wagon" as they called the old truck when at Beloit. It shines up with the best of them. It is made by the Caswell Company, of Chicago, is light looking and yet substantial. It weighs only 1700 pounds when all equipped, and when thus ready for action is lighter than the old truck without any ladders on.

The wheels are of wood finish, with brass hub-bands, and are of the patent Sarvan make. The tires project a sixteenth of an inch to protect the felices from wear. The frame is sixteen feet long, and is painted with English vermilion, striped with gold, and bearing on the sides in golden letters the name of the Company. The frame is so arranged that each ladder runs independently and on rollers, and are fastened securely in place by a patent lever eccentric, by a simple turn of which the ladders can be raised or lowered, and without disturbing the others. These consist of one fifty foot extension ladder, one thirty foot single ladder, one twenty-four foot ladder, two fourteen foot single ladders, and one twelve foot single ladder. These are painted blue, and when in place make a pleasing contrast with the other colors.

Above the front part of the frame is an iron arch bearing in golden letters "Hook & Ladder," and surmounted by an elegant signal lamp. A large gong situated at the front axle is so arranged that it can be made to strike by the revolutions of the wheel. At each corner of the frame is a brass double swing torch, swinging upon a standard, the end of which is finished to a point of brass, so that it can be stuck into the ground or into a board, wherever it may be desirable to plant the light. There are also three rubber fire buckets hanging to each side of the frame, and two brass hand lanterns hanging to each side, ready for use when needed. Then there are fire axes, pike poles, fire picks, crowbars, etc., making the whole as complete as any one could desire. Standing thus rigged the truck presents a pleasing sight indeed, but a still greater consideration is of course its usefulness, as it is meant for business, not for show. There seems no reason why, with this improved apparatus, and the well disciplined and energetic men who are to handle it, this branch of the Fire Department cannot now do as excellent service as any similar company in any part of the country.

The truck costs the city \$465 cash, besides the old truck. There will be some matters of freight which are to be added, so that the change will cost the city probably about \$525. The old truck is a veteran in the service, having been in the city's use for twenty-four years. It cost originally \$900, and is an excellent truck in some respects yet, though not such a one as is needed by this city, its appliances and arrangements being antiquated, and not such as would enable the company to do good and rapid work, and it was of no use at all for such fires as are liable to break out in the heart of a city of this size. The company allowed \$185 for this old truck, making the price of the new one \$650.

The members of Rescue Hook & Ladder Company gathered this afternoon and drew their new pet down to its house, where it will hold a public reception this evening, and everybody is welcome to come and see it.

## BENNETT'S BENEFIT.

D. D. Bennett having decided to remove to Kansas, and engage in railroading there, his many friends have induced him to delay his departure for a few days longer, in order to give him a benefit concert, to which arrangement he has thankfully consented. They have accordingly decided to give such an entertainment in Lippin's Music hall next Monday evening. The full programme has not yet been decided upon, but among the attractive features will be music by the Bower City Band, the Baptist quartet, and a grand chorus by about twenty-five singers, besides solos. Character songs by Charlie Patterson and T. H. Murphy, a fancy drill by a special detail of the Janesville Guards. Prof. T. Lomb and others of the musicians of the city will also assist in the entertainment. In fact the musical friends of Mr. Bennett are bent on giving him their best services, and the public will not hesitate to crowd the hall and swell the receipts. The entertainment will be a treat to itself, and the tickets are to be only twenty-five cents each.

Mr. Bennett needs few words of commendation here, where he has lived so long. He has always been generous in giving his services to the public, and has done a great deal for music in this city. The help he has so freely given at church entertainments, and home festivities, in public meetings, and in the sadder events in social life here, certainly entitles him to an enthusiastic expression of public appreciation. Freely hath he given and freely should he receive.

## ENGRAVING ON METAL.

Last evening Prof. MacAlister gave the third of his course of lectures on art, at Cannon's hall. It proved like the others given by him, not merely an attempt to entertain, but mainly an attempt, and a successful one, to instruct and enthuse. The lecture last evening consisted of an outline of the history of engraving upon metal, the various processes employed, the names of those who had become noted by their prominence in the art, and the practical utility of engraving. By it lovers of art were enabled to become familiar with the works of the great masters, and it brought into the room the creations of the great artists of all ages. The speaker displayed upon the platform a large number of steel engravings from his valuable collection. Those who listened to him last evening had the appetites sharpened for more of the same sort of instructive talk, and his lecture next week will doubtless be even more largely attended.

## PLAN OF THE PATRONS.

A Company to be Formed for the Purpose of Doing Business in this City.

The meeting of the Grangers held at the Court House yesterday afternoon resulted in the formation of what is to be known as the "Rock County Co-operative Association." It is intended to start another Grange store in this place, the object of the corporation being as set forth in the articles of association, "to establish, maintain, and carry on a general business in any or all of the following departments as may be determined upon from time to time, to-wit: mercantile, manufacturing, dairying, stock raising, shipping, commission, loaning money, buying, selling and exchanging property, real and personal, and building, buying, leasing, and selling dwelling houses, and other buildings."

The charter members appear to be W. H. Noyes, W. H. Wilbur, Henry Tarrant, O. F. Bowles, L. T. Rogers, Alex. Miller, James Cleland, George Sherman, Norman Parker and Joseph Bleasdale. The capital stock is to be \$4,000, the shares being placed at \$10 each, and only to be held by members of the order of Patrons of Husbandry, and when a stockholder ceases his connection with the order, his membership of the Association also ceases. The officers are to be a President, Secretary, and Treasurer, six directors and two auditors.

The further and future plans of the Association are not yet announced, but it is expected that a general store will be started here for the accommodation of the Patrons.

## SUDDEN DEATH.

L. B. Miller, of Monroe, died very suddenly, last night, of heart disease. He was down town in the evening, waited for the mail, and went home feeling in accustomed health. In the night his wife was awakened by his struggles for breath, and before any relief could be given him, death ensued. Mr. Miller was of the firm of Goddard & Miller, and was a man generally respected and esteemed, and had many acquaintances throughout the county.

## GIFTS TO A CHURCH.

In addition to the gift of tea and table set of dishes, to the Emerald Grove church by Mr. and Mrs. John Cummings, as mentioned in our columns a few weeks ago, we are requested to say that they have also donated four sets of knives and forks, and two sets of tea-spoons "in memoriam" of their daughter, Mrs. E. Cheesbro also donated a set of tea-spoons.

These articles are intended for use in church societies. The same church and society have also recently received generous and timely assistance from the Messrs. Earl, Commission Merchants, of 169 South Water St., Chicago, as set forth in resolutions of thanks, unanimously adopted by the congregation, last Sabbath, at morning service. It may be stated here that the kind donors were former residents of Rock county, in the town of Bradford, and have taken this way of showing their good will toward the community in which they formerly lived.

## NOTICE FOR BUILDERS.

Proposals for furnishing stone and building a wall around the premises of St. Mary's Catholic church will be received up to the 15th of March. The right to reject all bids is reserved. For further information call upon Rev. Father Munich, the rector of St. Mary's church.

As a Preventive of the diseases which affect the teeth and mouth, nothing is surer and speedier in its effects than SORBOUNT. Its benefits are realized at once. It is aromatic, expulsive of the cankerous affections, and most delightful when used. It cleanses from the humors which derange the secretions, and whitens the teeth.

Years of use have established the tenacity of SPALDING'S GLUE. Its hold on the confidence of the public cannot be broken. mard6daw3m

## Peruvian Syrup.

For nearly a quarter of a century the chemical preparation known as PERUVIAN SYRUP has been steadily growing in public favor as a means of imparting vigor to the human system by vitalizing and enriching the blood. At the present time it is one of the most popular and valuable of the established proprietary medicines in the world, and not a few of the best druggists confidently advise their families and friends to use it for the large class of complaints which it relieves. The value of iron as a medical agent has long been known to physicians, but it has never before been presented in a form so agreeable as in this preparation. This syrup prepares the system for the debilitating effects of the hot months, and has proved an antidote to many chronic maladies. Boston Post. Sold by all druggists. Sold in Janesville by Prentice & Evenson. mar3d6daw3m
